Hey Baby! Just the facts...

Two Toronto moms who discovered how difficult getting around Toronto with strollers can be have created a website for new mothers called justthefactsbaby.com.

They are going through various neighbourhoods, street by street and store by store, so far in Toronto and Hamilton, flagging maps with up to 8 different symbols informing parents about family friendly stores, baby change tables, nursing stations, high chair availability, splash parks and more.

Click [here](#) to go directly to the maps section of the site.

Other areas on this site include Your Baby's Development in the First Trimester, How to get more sleep as a mom, How to get your pre-baby body back, The new mom's survival guide and Helping your baby overcome separation anxiety.

Bill spoke with Nancy Ripton, one of the partners in the venture.
